**REALIZING
BUSINESS
VALUE**

Who we

are  |  SAS

REALIZE THE VALUE OF SUSTAINABILITY

3R Sustainability is a provider of **full-service sustainability solutions that create business value**. We offer services in the areas of management systems, climate, built environment, and sustainability assurance. Our assurance team, Sustainability Assurance Services (SAS), draws on decades of experience to provide tailor-made sustainability assurance services for corporations and certification bodies.

Responsibility

understanding business impacts and risks and taking appropriate action to mitigate negative impacts, while capitalizing on opportunities

Resilience

building capabilities to withstand changing environmental and socioeconomic conditions over time

Results

efficiently using resources and high-quality data to improve business performance and demonstrate business value creation

We practice what we preach

IFRS Sustainability
Alliance

CEOs *for*
SUSTAINABILITY
