

INVESTOR & PORTFOLIO SERVICES

REALIZE THE VALUE OF SUSTAINABILITY

ABOUT 3R SUSTAINABILITY

3R is a full-service sustainability solutions company that works with organizations to integrate sustainability into their business operations, helping them to realize the value of sustainability. With a focus on partnership, our team provides expert support to educate and engage your company throughout the process.

We have technical capabilities in sustainability management and reporting, climate related consulting, resource reduction, built environment assessments, and sustainability assurance. Our depth in service offerings and expertise positions us to be a holistic partner for your sustainability-related needs.

BUILDING RESILIENT PORTFOLIO COMPANIES

3R partners with investors and their portfolio companies to improve operational efficiency, reduce risk, and strengthen resilience—turning sustainability into measurable operational and long-term value through integrated strategies, programs, and management systems.

We combine industry and technical expertise to help companies reduce waste, enhance product value, and navigate complex supply chains to stay ahead of evolving customer and regulatory demands.

3R investor and portfolio services include:

Portfolio Data Maturity Assessments

Product Carbon Footprints & Lifecycle Assessment

Portfolio Carbon Measurement (Scope 1-3)

Sustainability Business Performance for Acquisitions

Supply Chain Sustainability Programs

Compliance Risk Analysis & Technical Support

Portfolio Value Creation Programs

An Integrated Investment Lifecycle Approach
